DC MEMBER-5

Dr. S.Vinodh., ME., PhD
Associate Professor
Department of Production Engineering
National Institute of Technology, Trichy
Mobile:9952709119, Email:vinodh@nitt.edu

1. Sustainable Design of Sprocket Through CAD and CAE: A Case Study, Anju Mathew, Arjun Santhosh, S Vinodh, P Ramesh, Innovative Product Design and Intelligent Manufacturing Systems, Pages – 15-28, 2020
2. Analysis of factors influencing AM application in food sector using ISM, Arun Palaniappan, S Vinodh, Rajesh Ranganathan, Journal of Modelling in Management, 2020
3. Impact of technical and social lean practices on SMEs' performance in automobile industry: a structural equation modelling (SEM) analysis, Vallinayagam Arumugam, G Kannabiran, S Vinodh, Total Quality Management & Business Excellence, Pages 1-27, 2020
4. State of art review on Life Cycle Assessment of polymers, P Ramesh, S Vinodh, International Journal of Sustainable Engineering, Pages 1-12, 2020.
5. Integration of continuous improvement strategies with Industry 4.0: a systematic review and agenda for further research, S Vinodh, Jiju Antony, Rohit Agrawal, Jacqueline Ann Douglas, The TQM Journal, 2020
6. Application of a hybrid selective inventory control technique in a hospital: a precursor for inventory reduction through lean thinking, Anand Gurumurthy, Vinoth Kumar Nair, S Vinodh, The TQM Journal, 2020.
7. Sustainable industry 4.0–an exploratory study for uncovering the drivers for integration, N Harikannan, S Vinodh, Anand Gurumurthy, Journal of Modelling in Management, 2020
8. Application of interpretive structural modelling for analysis of lean adoption barriers in heavy industry, BG Aadithya, P Asokan, S Vinodh, International Journal of Lean Six Sigma, 2020
9. Analysis of readiness factors for Industry 4.0 implementation in SMEs using COPRAS, International Journal of Quality & Reliability Management, 2020.
10. Innovation for Smart Factories, Singh Lokesh, Dewangan Someh Kumar, Das Ashish, K Jayakrishna, Mathivathanan Deepak, K Sivakumar, S Vinodh, Vishal A Wankhede, Sustainable Manufacturing for Industry 4.0, Pages – 65-124, 2020.
11. Life Cycle Assessment of an Additive Manufactured Automotive Component, Rohit Agrawal, S Vinodh, Advances in Additive Manufacturing and Joining, Pages 219-228, 2020
12. Development of structural equation model for Lean Six Sigma system incorporated with sustainability considerations, S Vinodh, P Asokan, International Journal of Lean Six Sigma, 2020.
13. TISM for analysis of barriers affecting the adoption of lean concepts to electronics component manufacture, S Vinodh, International Journal of Lean Six Sigma, 2020.
14. A conceptual framework for the assessment of sustainability indicators using IF-THEN rules approach: a case study, K Jayakrishna, S Vinodh, KEK Vimal, International Journal of Services and Operations Management, Volume 34, Issue 3, Pages 361-384, 2019.
15. Application of fuzzy axiomatic design for prioritisation of sustainable manufacturing strategies for an automotive component manufacturing scenario, RM Thirupathi, S Vinodh,

Priyanka Shinde, International Journal of Services and Operations Management, Volume 34, Issue 3, Pages 323-340, 2019.

16. 16 ChAPtEr Models and Approaches for Sustainable Performance Measurement, S Vinodh, KJ Manjunatheshwara, Sustainable Material Forming and Joining, Pages 367, 2020.
17. Application of environmentally conscious manufacturing strategies for an automotive component, RM Thirupathi, S Vinodh, R Ben Ruben, Jiju Antony, International Journal of Sustainable Engineering, Volume 12, Issue 2, Pages 95-107, 2019.
18. State of art perspectives of lean and sustainable manufacturing, S Vinodh, P Asokan, International Journal of Lean Six Sigma, 2019.
19. Modelling for analysis of factors influencing Sustainability in Higher Education, S Vinodh, Rohit Agrawal, Higher Education and Sustainability: Opportunities and Challenges for Achieving Sustainable Development Goals, 2019
20. Application of Interpretive Structural Modelling for analysis of factors influencing Sustainability in Higher Education, S Vinodh, Rohit Agrawal, Higher Education and Sustainability: Opportunities and Challenges for Achieving Sustainable Development Goals, Pages 117, 2019.
21. Sustainability evaluation of additive manufacturing processes using grey-based approach, Rohit Agrawal, S Vinodh, Grey Systems: Theory and Application, 2019
22. Application of interpretive structural modelling for analysis of factors influencing composite fabrication using additive manufacturing, Shwetha S Kumar, S Vinodh, International Journal of Materials Engineering Innovation, Volume 10, Issue 3, Pages - 218-245, 2019.
23. Application of fuzzy QFD for improving the process sustainability characteristics: a case study, KEK Vimal, S Vinodh, K Jayakrishna, International Journal of Services and Operations Management, Volume 32, Issue 2, Pages - 173-201, 2019.
24. Application of system dynamics modelling for a sustainable manufacturing system of an Indian automotive component manufacturing organisation: A case study, RM Thirupathi, S Vinodh, S Dhanasekaran, Clean Technologies and Environmental Policy, Volume 21, Issue 5, Pages 1055-1071, 2019
25. Application of total interpretive structural modelling (TISM) for analysis of factors influencing sustainable additive manufacturing: a case study, Rohit Agrawal, S Vinodh, Rapid Prototyping Journal, 2019
26. State of art review on sustainable additive manufacturing, Rohit Agrawal, S Vinodh, Rapid Prototyping Journal, 2019
27. Lean Six Sigma with environmental focus: review and framework, R Ben Ruben, S Vinodh, P Asokan, The International Journal of Advanced Manufacturing Technology, Volume 94, Issue 9-12, Pages 4023-4037, 2018
28. Application of interpretive structural modelling for analysing barriers to total quality management practices implementation in the automotive sector, G Muruganantham, S Vinodh, CS Arun, K Ramesh, Total Quality Management & Business Excellence, Volume 29, Issue5-6, Page 524-545, 2018.
29. ISM and Fuzzy MICMAC application for analysis of Lean Six Sigma barriers with environmental considerations, S Vinodh, P Asokan, International journal of lean six Sigma, 2018

30. Multi-objective optimization of turning parameters using the combined moora and entropy method, B Singaravel, T Selvaraj, S Vinodh, Transactions of the Canadian Society for Mechanical Engineering, Volume 40, Issue 1, Pages 101-111, 2016.
