

List of publications

1. "Performance analysis of Glioma brain tumor detection and segmentation using image registration technique", Materials today proceedings, Article in press.
2. "Deformation Model based Segmentation of Skin Lesions for Medical Image Data", International Journal for Research in Applied Science & Engineering Technology, Volume 7 Issue II, Feb 2019
3. "Realization of panoramic image model of aerial data using stitching technique", International journal of advanced research in Electrical electronics and instrumentation engineering, Pp 30 – 34, volume 8, issue 1, January 2019
4. "Smart Tracking System to Locate Student and Vehicle in Schools", International Journal of Advanced Research in Computer and Communication Engineering, Vol. 8, Issue 1, January 2019
5. "Design and development of drone for multiple applications", International journal of recent trends in engineering and research, pp 511 -516 march 2019
6. "Design and Implementation of a Multicopter Unmanned Aircraft System for Target Tracking", Arab J Sci Engineering, (2017) 42:1737–1749.
7. "Moving Target Detection Using Adaptive Background Segmentation Technique for UAV based Aerial Surveillance", Journal of Scientific & Industrial Research, Vol. 73, April 2014, pp. 247- 250
