

Dr. R. PRAKASH

SSN COLLEGE OF ENGINEERING

1. Effects of oxygenated additives and Al₂O₃-TiO₂ thermal barrier piston coating on diesel engine fueled with non-edible biodiesel, AIP Conference Proceedings, Volume 2161, Issue 1 , 10.1063/1.5127594.
2. The Performance and Emission Characteristics Of Al₂O₃-TiO₂ Coated Piston Di Diesel Engine Fueled with Poultry Waste Biodiesel, International Journal of Mechanical and Production Engineering Research and Development, Volume 8, pages: 585-591.
3. Investigation on the Flow Structure and the Performance of an Annular Diffuser with Two Different Types of Struts, Journal of Informatics and Mathematical Sciences, Volume 3, Issue 10, Pages :479- 488.
4. Investigation on the Electrical Conductivity of Aqueous Glycol based ZnO Nanofluids, May 2019, Journal of Applied Fluid Mechanics 12(3):865-870.
5. Design and Optimization of Rigging & Derigging Stations for OM906, OM457 & 4D34I Engines, Journal of Chemical and Pharmaceutical Sciences ISSN: 0974-2115.
6. Design of Electronic Semi - Automatic Clutch for Manual Actuation of Clutch in a Car, Publication date, 2017, Journal of Chemical and Pharmaceutical Sciences, Volume 7, Issue: SP, Pages: 153-156.
7. Numerical Study on a Conical Diffuser with Inlet Swirl, September 2016 Applied Mechanics and Materials 852:688-692.
8. Analysis of Surface Waste Heat Recovery in IC Engine by Using TEG, Applied Mechanics and Materials (Volume 787), Pages:782-78.
9. Cost Effectiveness of Using Biodiesel in Diesel Engines, Publication date:2015/10, International Conference on Advances in Mechanical Engineering - ICAME-2015, Pages 66-72.
10. Experimental Investigation of CI Engine Performance using Agitated Biodiesel, Publication date 2015/10, Publication date: 2015/10, Pages 78-82.
11. Performance and emission characteristics of a diesel engine fuelled by neem oil blended with alcohols, December 2011 International Journal of Ambient Energy 32(4).
12. Experimental optimization of ethanol gasoline blends for a two-stroke commercial gasoline engine, January 2015 Journal of Chemical and Pharmaceutical Sciences 7:190-193.
13. Comparative Analysis of Performance and Emission Characteristics of Diesel Engine with Biodiesel Prepared from Waste Cooking Oil and Pongamia Oil, August 2015 Applied Mechanics and Materials 787:787-791.
