

| s. n o | Title of the paper  | Authors  | Publication date | Journal  | Volume, issue, pages           | Publisher  |
|--------|---|--|------------------|--|--------------------------------|--|
| 1      | Correlation and path analysis for seed yield and its components in sesame ( <i>Sesamum indicum</i> L.)  | JS Navaneetha, E Murugan, C Parameswari                | 2019             | Electronic Journal of Plant Breeding                               | Vol.10 , Issue 3 pp.1262 -1268 | Indian Society of Plant Breeders                     |
| 2      | Correlation and path analysis studies in hybrids of Line x Tester for yield and yield component traits in sesame ( <i>Sesamum indicum</i> L.) | P Vinoth, E Murugan, M Arumugam Pillai, ML Mini        | 2018             | Electronic Journal of Plant Breeding                               | Vol. 9, Issue 3, pp 1206-1212  | Indian Society of Plant Breeders                     |
| 3      | Generation Mean Analysis for Yield and Salinity Tolerance in Rice ( <i>Oryza sativa</i> L.)   | R Muthuvijayaragavan, E Murugan                        | 2017             | International Journal of Current Microbiology and Applied Sciences | Vol. 6, Issue 9, pp. 2249-2257 | Indian Society of Plant Breeders                     |
| 4      | Genetic relationship between yield and battering quality in blackgram ( <i>Vigna Mungo</i> L.)  | K Veni, E Murugan, ML Mini, C Vanniarajan, T Radhamani | 2016             | Legume Research- An International Journal                          | Vol.39 , Issue 6 , pp. 692-701 | Agricultural Research Communication Centre           |
| 5      | Correlation and path coefficient analysis for yield and yield attributes in soybean, <i>Glycine max</i> L (Merr)                              | D Nagarajan, T Kalaimagal, E Murugan                   | 2015             | International Journal of Farm Sciences                             | Vol.5 , Issue 3, pp. 28-34     | Society for Advancement of Human and Nature (SADHNA) |
