

**Dr. S. Manickam**

Professor  
Department of Manufacturing Engineering  
Annamalai University  
Annamalai nagar,  
Cuddalore district,  
Tamilnadu – 608002

Investigation of FSSW parameters on shear fracture load of AA6061 and copper alloy joints S. Manickam, Chinnasamy Rajendran V. Balasubramanian June 2020 Heliyon	2020
Developing an Empirical Relationship to predict the strength of Friction Stir Spot Welded Dissimilar Joints of an Aluminium Alloy with Carbon Steel Manickam S, Rajendran C and Balasubramanian V <i>Indian Welding Journal</i> , Volume 49, Number 3, Jul 2016, pp. 61-69	2016
Optimizing the Friction Stir Spot Welding Parameters to attain Maximum Strength in Al/Mg dissimilar joints Manickam S and Balasubramanian V, <i>International Journal of Welding and Joining</i> , Volume 34, Number 3, Jan 2016, pp. 23-30. 2016.	2016
Optimizing the Friction Stir Spot Welding Parameters to attain Maximum Strength in dissimilar joints of Aluminum and Carbon Steel Manickam S and Balasubramanian V <i>International Journal of Material Forming and Machining Processes</i> , Volume 3, Number 2, Aug 2016, pp. 64-76. 2016.	2016
Developing Empirical Relationships to Predict the Strength of Friction Stir Spot Welded AA6061-T6 Aluminum Alloy and Copper Alloy Dissimilar Joints Manickam S and Balasubramanian V <i>Journal of Manufacturing Engineering</i> , Volume 10, Number 4, Apr 2015, pp. 207-214. 2015.	2015
Developing Empirical Relationship to Predict the Strength of Friction Stir Spot Welded Dissimilar joints of Aluminum and Magnesium Alloys Manickam S, Rajendran C and Balasubramanian V, <i>Manufacturing Technology Today (MTT)</i> , Volume 14, Number 1, Sep 2015, pp. 12-20. 2015	2015
Maximizing strength of friction stir spot welded bimetallic joints of AA6061 aluminum alloy and copper alloy by response surface methodology. Manickam S and Balasubramanian V <i>IPASJ International Journal of Mechanical Engineering (IIJME)</i> , Volume 3, Number 1, Jan 2015, pp. 15-26. 2015.	2015
