

1. Novel Interconnected Hierarchical porous carbon electrodes derived from Bio-waste of corn husk for supercapacitor applications
Surya K; **Michael M. S**
Journal of Electro Analytical Chemistry, 878 (2020)114674
2. High-performance electric double-layer capacitor fabricated with nanostructured carbon black-paint pigment as an electrode.
V. Samynaathan, Sangeetha R. Iyer, K. Shree Kesavan, **M. S. Michael**
Carbon Lett. DOI 10.1007/s42823-020-00159-5 (2020)
3. Battery-active Monoclinic $\text{Li}_2\text{MnSiO}_4$ Synthesized via Temperature Programmed Reaction.
K. Shree Kesavan, **M. S. Michael**, S. R. S. Prabakaran,
Journal of the Taiwan Institute of Chemical Engineers, 105(2019)28-38.
4. Enhanced specific capacitance of a novel ternary polypyrrole incorporated with prussian blue and mesoporous carbon black for high performance supercapacitor applications
Suganthi Muthusamy, Julie Charles, **M.S. Michael**, K. Shree Kesavan
Materials Research Bulletin, 120 (2019) 110587.
5. Facile Electrochemical Activity of Monoclinic $\text{Li}_2\text{MnSiO}_4$ as Potential Cathode for Li-Ion Batteries.
K. Shree Kesavan, **M. S. Michael**, S. R. S. Prabakaran
ACS Appl. Mater. Interfaces 11(2019), 28868–28877.
6. $\text{Li}_2\text{NiTiO}_4$: A new Insertion type Pseudocapacitive Electrode for Aqueous Lithium-Ion Asymmetric capacitors
R. Anslin star, **M.S. Michael** and S.R.S. Prabakaran
Materials Today Proceedings, 5 (11) (2018) 23339-2334, ISSN: 2214-7853 (Elsevier publication)
7. High powered hybrid supercapacitor with microporous activated carbon
K. Shree Kesavan, K. Surya, **M.S. Michael**
Solid State Ionics 321 (2018) 15–22.
8. A Review on Advancement in Non-Noble Metal based Oxides as Bifunctional Catalysts for Rechargeable Non-aqueous Li/air Battery
K. Surya, **M.S. Michael**, S.R.S. Prabakaran
Solid State Ionics, 317 (2018) pp. 89-9.
9. Magnetic order and electronic properties of $\text{Li}_2\text{Mn}_2(\text{MoO}_4)_3$ material for lithium-ion batteries: ESR and magnetic susceptibility studies
N.M.Suleimanov, S.R.S.Prabakaran, S. M. Khantimerov, F. A. Nizamov,
M.S. Michael, H. Drulis, P. Wisniewski
Appl.Phys. A 122 (2016) 754.

10. Design of Monolayer Porous Carbon-Embedded Hybrid-LiMnPO₄ for High Energy Density Li-Ion Capacitors

M. S. Michael, Ajit R. Kulkarni, S. R. S. Prabakaran

J. Nanosci. Nanotechnol. 16, 7314-7324 (2016)

The paper has been highlighted as one of the 25 hottest Articles of Science Direct, Elsevier, 2016.
