

## **Dr. J. Karthikeyan**

**Associate Professor**

**National Institute of Technology, Tiruchirappalli  
-620015**

**Phone: +91-431-2503176 Mobile: +91-9487359908**

**Email: karthi1212@gmail.com, jk@nitt.edu**

### **International Journals**

- 
- Artificial neural network for predicting creep and shrinkage of high performance concrete, J Karthikeyan, A Upadhyay, NM Bhandari Journal of advanced concrete technology 6 (1), 135-142, 2008
  - Role of silica fume concrete in concrete technology K Jayakumar, Ultra High Performance Concrete (UHPC), 165, 2004
  - An overview of electronic waste as aggregate in concrete, SR Shamili, C Natarajan, J Karthikeyan, World Academy of Science, Engineering and Technology International Journal ... 2017
  - Influence of sustainable materials in strength and durability of self-compacting concrete: a review, P Chandru, C Natarajan, J Karthikeyan, Journal of Building Pathology and Rehabilitation 3 (1), 2018
  - Briefing: Performance of polypropylene fibre in high-performance concrete, A Arunachalam, K Jayakumar, Proceedings of the Institution of Civil Engineers-Construction Materials 168 ... 2015
  - A review on the effect of industrial waste in concrete, A Ananthi, J Karthikeyan, The Indian Concrete Journal November, 2015
  - Axial behaviour of semi-lightweight aggregate concrete-filled steel tube columns-A DOE approach, M Abhilash, S Jhanjhari, P Parthiban, J Karthikeyan, Journal of Constructional Steel Research 162, 105614, 2019
  - Prediction of Compressive Strength for HPC mixes containing different blends using ANN Allam Lingam, J. Karthikeyan, Computers and Concrete 13 (5), 581-592, 2014
  - Mechanical properties of high performance concrete using condensed silica fumes J Karthikeyan, SC Natesan Proceedings of the ISHPC, conference: 3rd international PCI/FHWA symposium ... 2003
  - Performance enhancement of green concrete, GV Suresh, J Karthikeyan, Proceedings of the Institution of Civil Engineers-Engineering Sustainability ... 2016
  - Properties of Industrial Slag as Fine Aggregate in Concrete, A. Ananthi, J. Karthikeyan International Journal of Engineering and Technology Innovation 5, 132-140, 2015
  - Steel Slag—A Strong and Sustainable Substitute for Conventional Concreting Materials, P Chandru, J Karthikeyan, C Natarajan, Sustainable Materials in Building Construction, 31-76, 2020
  - Effect of agro-waste on strength and durability properties of concrete, SS Banu, J Karthikeyan, P Jayabalan, Construction and Building Materials 258, 1203221, 2020
  - Artificial Neural Network to Predict the Compressive Strength of Semilightweight Concrete Containing Ultrafine GGBS, P Parthiban, J Karthikeyan, Journal of Testing and Evaluation 48 (2), 795-810, 2020
  - Combined Performance of Polypropylene Fibre and Weld Slag in High Performance Concrete, A Ananthi, J Karthikeyan, Journal of The Institution of Engineers (India): Series A 98 (4), 405-412, 2017
-

- Effect of GGBS and Fly ash aggregates on properties of geopolymer concrete, K Jayakumar, Journal of Structural Engineering 43 (5) 2016
  - Effect of Silica fume and flyash on fresh and hardened state of Self Compacting Concrete, J. Karthikeyan, C. Arunkumar, Elixir Cement and Concrete Composites 61, 16718-16722 2013
  - Long-term effects of creep and shrinkage on prestressed concrete Bridge girders using SCC, J. Karthikeyan, Praveen.V.F., International Journal of Structural Engineering 2 (4), 390-403, 2011
  - The early-age prediction of concrete strength using maturity models: a review, K Nandhini, J Karthikeyan, Journal of Building Pathology and Rehabilitation 6 (1), 1-10, 2021.
  - Some durability characteristics of ternary blended SCC containing crushed stone and induction furnace slag as coarse aggregate, P Chandru, J Karthikeyan, AK Sahu, K Sharma, C Natarajan, Construction and Building Materials, 121483, 2020.
  - An Overview of Construction and Demolition Waste as Coarse Aggregate in Concrete, SR Shamili, J Karthikeyan, International Journal of Structural and Construction Engineering 14 (12) ... 2020
  - Methodology for Proportioning SCC Containing High Powder Content Derived from Crushed Stone Sand, P Chandru, J Karthikeyan, P Parthiban, C Natarajan, Sustainable Materials in Building Construction, 77-104, 2020
  - Effect of Sustainable Materials in Fresh Properties of Self-compacting Concrete, P Chandru, J Karthikeyan, C Natarajan, Sustainable Materials in Building Construction, 1-29, 2020.
  - Production of Semi-lightweight Concrete Using Calcite Powder Pellets as Coarse Aggregates, P Parthiban, J Karthikeyan, Green Buildings and Sustainable Engineering, 249-256, 2020.
  - Influence of Alccofine on Semi-Light Weight Concrete under Accelerated Curing and Conventional Curing Regimes, P Parthiban, J Karthikeyan, International Journal of Structural and Construction Engineering 13 (8), 483-487, 2019.
  - Effect of Accelerated Curing and Normal Curing Regimes on UFGGBFS-Based Semi-Lightweight Concrete, J Karthikeyan, International Journal of Concrete Technology 5 (1), 1-7, 2019
  - Influence of GGBFS on the Mechanical Properties of the Water Cured Fly Ash Aggregate-Based Geopolymer Concrete, VS Gudipudi, J Karthikeyan, International Journal of Concrete Technology 1 (2), 54-64, 2016.
  - Durability aspects of Copper slag admixed Concrete, Akhil G, J. Karthikeyan, International Journal of Fracture and Damage Mechanics 1 (2), 8-14, 2016.
  - Performance enhancement of Green Concrete, G. Venkata Suresh, J. Karthikeyan, Proceedings of the Institution of Civil Engineers – Engineering Sustainability, 2016.
  - Material Advantage: The Next Smart Building Material, J Karthikeyan, Construction world 18 (6), 90-92, 2016.
  - Influence of weld slag aggregate in high-performance concrete, A Arunachalam, K Jayakumar, Proceedings of the Institution of Civil Engineers-Waste and Resource ... 2016.
  - Influence of polypropylene fibres on the mechanical and durability properties of high performance concrete, Ananthi. A, J. Karthikeyan, International Conference on Fibre Concrete 2015, Prague, Czech Republic. 2015.
-

- Material Advantage: Small, Strong and Resistant, K Jayakumar, Construction world 17 (12), 94 to 96, 2015.
  - Durability Aspects in High Performance Metakaolin Concrete, Karthikeyan. J, Shaheer Ali. K, Chittibabu. K, 1st International Conference on Clay and Calcinated clays for Sustainable ... 2015.
  - Review on the Performance of Fibre and Industrial Slag in Concrete, J Karthikeyan, A Ananthi, International Journal of Concrete Technology 1 (1), 16-30, 2015.
  - A Review on the Performance of Fibre and Industrial Slag in Concrete, A. Ananthi, J. Karthikeyan, International Journal of Advanced Concrete Technology 1 (1), 16-31, 2015.
  - Influence of GGBFS on the Mechanical Properties of the Water Cured Fly Ash Aggregate-Based Geopolymer Concrete, G. Venkata Suresh, J. Karthikeyan, International Journal of Advanced Concrete Technology 1 (2), 1-12, 2015.
  - Material properties of bottom ash and welding slag as fine aggregates in concrete, K Jayakumar, A Arunachalam, Construction Materials and Structures: Proceedings of the First ... 2014.
  - Material Properties of Bottom Ash and Welding Slag as Fine aggregates in Concrete, Karthikeyan. J, Ananthi. A, International Conference on Construction Materials and Structures, November ... 2014.
  - Comparative Studies on Mechanical Properties in High Performance Concrete J. Karthikeyan, K. Shaheer Ali, The Indian Concrete Journal 88 (9), 35-45, 2014.
  - Mathematical Modeling of Self Compacting Concrete, C Arunkumar, J Karthikeyan, International Journal of Engineering and Management Research (IJEMR) 4 (3) ... 2014
  - Rheological Behavior of Binary and Quaternary Blended High Performance Concrete using Modified Slump Cone test, Allam Lingam, J. Karthikeyan, International Journal of Advanced Engineering Applications 2 (5), 116-131, 2013.
  - Creep and Shrinkage behavior of HPC, Karthikeyan Jayakumar, Akhil Upadhyay, Navrathan M. Bhandari, The Indian Concrete Journal 87 (10), 39-45, 2013.
  - Flow Behavior of Freshly Mixed Quaternary Blended High Performance Concrete using Modified Slump Cone test, Allam Lingam, J. Karthikeyan, Elixir Cement and Concrete Composites 61, 16709-16717 2013.
  - Effect of various Curing Conditions on Compressive strength on HPC, J. Karthikeyan, K. V. Pratap, Elixir Cement and Concrete Composites 61, 16705-16708, 2013
  - Effect of various curing conditions on compressive strength of HPC, J Karthikeyan, KV Pratap, 2013.
  - Flow behavior of freshly mixed quaternary blended high performance concrete using modified slump cone test, A Lingam, J Karthikeyan, 2013.
  - Long-term Deformation of a Simply Supported HPPC Single-cell Box Girder Bridge, J. Karthikeyan, Upadhyay. A, N. M. Bhandari, The Bridge and Structural Engineer 43 (2), 7-29, 2013.
  - Long-term Behavior of Simply Supported Pretensioned Concrete Bridge Girders, Alaguvel. S, Karthikeyan. J, The Bridge and Structural Engineer 43 (1), 49-72, 2013.
  - Comparative Study of Structural Design and Cost Analysis for Storage Container Circular and Square Shapes, Rajiv Gandhi. K, J. Karthikeyan, International Journal of Scientific Research 1 (6), 52-54, 2012.
-

- Long-term Deformation of a Simply Supported HPPC Twin-cell Box Girder Bridge, J. Karthikeyan, Upadhyay. A, N. M. Bhandari, The Bridge and Structural Engineer 42 (2), 1-25, 2011.
  - Effect of silica fume and metakaoline in consistency and setting time of OPC, J Karthikeyan, R Karthik, 2011.
  - Performance evaluation between ternary blended SCC mixes containing induction furnace slag and crushed stone as coarse aggregate, P Chandru, J Karthikeyan, AK Sahu, K Sharma, C Natarajan, Construction and Building Materials 267, 120953
-
