NIT- Trichy

1. Thermal performance enhancement studies using graphite nanofluid for heat transfer applications, Volume 49, Issue 5: July 2020, Pages 3013-3029.
2. Effect of hydrophilic coating on mesh wicks used in heat pipes, Pages 680-686 | Received 12 Aug 2019, Accepted 13 Nov 2019, Published online: 28 Nov 2019.
3. Energy Storage Technologies and Materials for Solar Energy, International Journal of Photoenergy, Volume 2020, Article ID 7085497.
4. Effect of coated mesh wick on the performance of cylindrical heat pipe using graphite nanofluids, June 2020, Journal of Thermal Analysis and Calorimetry.
5. Heat Transfer Enhancement Studies in Pool Boiling using Hybrid Nanofluids, December 2018 Thermochimica Acta 672.
6. Convective heat transfer studies on helically corrugated tubes with spiraled rod inserts using TiO₂/DI water nanofluids, January 2019 Journal of Thermal Analysis and Calorimetry 137(2).
7. Photothermal Energy Conversion Enhancement Studies Using Low Concentration Nanofluids, J. Sol. Energy Eng. Dec 2019, 141(6): 061012 (8 pages).
8. Erythritol based Nano-PCM for Solar Thermal Energy Storage, International Research Journal of Engineering and Technology (IRJET), Volume: 06 Issue: 04 | Apr 2019, pages : 1631 – 1636.
9. Heat transfer and pressure drop studies of TiO₂/DI water nanofluids in helically corrugated tubes using spiraled rod inserts, May 2018 Heat and Mass Transfer 54(4).
10. Experimental studies on internally grooved double pipe heat exchanger using Al₂O₃/TiO₂ nanofluids, April 2018 Journal of Nanofluids 7(2):275-283.
11. Experimental investigation and mechanism of critical heat flux enhancement in pool boiling heat transfer with nanofluids, Heat and Mass Transfer, Volume 52, Issue 11, pp.2357-2366, November 2016, Bibcode: 2016HMT: 52.2357K.
12. Parametric study of pool boiling heat transfer with nanofluids for the enhancement of critical heat flux: a review, International Journal of Thermal Sciences, Volume 87, January 2015, Pages 228-240.
13. Performance analysis of cylindrical heat pipe using nanofluids – An experimental study, International Journal of Multiphase Flow, Volume 72, June 2015, Pages 188-197.
14. Synthesis, stability, transport properties, and surface wettability of reduced graphene oxide/water nanofluids, International Journal of Thermal Sciences, Volume 97, November 2015, Pages 17-25.
