1.	A Novel IDS to Detect Multiple DoS Attacks with Network Lifetime Estimation Based on Learning-Based Energy Prediction Algorithm for Hierarchical WSN	Dharini, N., Duraipandian, N., Katiravan, J.	2019	Advances in Intelligent Systems and Computing 846, pp. 1-17
2.	A Comprehensive Analysis of Key Management Models in the Cloud: Design, Challenges, and Future Directions	Ahamed Ali, S., Ramakrishnan, M., Duraipandian, N.	2019	Advances in Intelligent Systems and Computing 846, pp. 53-61
3.	Optimal adaptive genetic algorithm based hybrid signcryption algorithm for information security	Sujatha, R., Ramakrishnan, M., Duraipandian, N., Ramakrishnan, B.	2015	CMES - Computer Modeling in Engineering and Sciences 105(1), pp. 47-68
4.	Anonymous web browsing against traffic analysis attacks by reusing the cache memory	Katiravan, J., Duraipandian, N.	2014	Information (Japan) 17(9B), pp. 4583-4588
5.	Secured data storage with merkle hash tree in cloud computing	Sheela Shantha Kumari, P.K., Duraipandian, Cyril	2014	International Journal of Applied Engineering Research 9(22), pp. 13290-13293
6.	Anonymous web browsing against traffic analysis attacks by reusing the cache memory	Katiravan, J., Duraipandian, N.	2014	Journal of Theoretical and Applied Information Technology 64(2), pp. 490-494
7.	Improved IP trace back using pre-shared key authentication mechanism	Katiravan, J., Chellappan, C., Duraipandian, N.	2011	European Journal of Scientific Research 50(1), pp. 99-103
