

Name : Dr. Booma Nagarajan
DESIGNATION: Professor
DEPARTMENT: Department of Electrical and electronics Engineering
INSTITUTION: Jerusalem college of engineering
PLACE&PINCODE: Chennai/600100
Mobile: 9445070738
Email: booma_nagarajan@yahoo.com
Research Area: Power electronics, Renewable energy systems

JOURNALS

- Nagarajan, B., Sathi, R.R. FPGA-Based Automatic Frequency-Controlled Resonant Inverter for Induction Heating System. *J. Inst. Eng. India Ser. B* 100, 131–141 (2019). <https://doi.org/10.1007/s40031-019-00377-0>
- Jayachandran, A.P. & Nagarajan, B. & Lakshvanthy, S. & Kaushik, B. & Kumar, N.. (2018). Phase-shifted time sharing control based full bridge LLC inverter for induction heating application. *International Journal of Pure and Applied Mathematics*. 119. 15573-15579.
- Vishnuram, Pradeep & N. Booma & Sureshkumar, A.. (2017). Investigations on stability and performance of a varia-ble frequency based fuzzy logic controller for induction cooking system. *International Journal of Engineering & Technology*. 7. 15. 10.14419/ijet.v7i1.2.8970.
- Nagarajan, Booma & SATHI, Rama & VISHNURAM, Pradeep. (2016). Fuzzy logic based voltage control scheme for improvement in dynamic response of the class D inverter based high frequency induction heating system. *TURKISH JOURNAL OF ELECTRICAL ENGINEERING & COMPUTER SCIENCES*. 24. 2556-2574. 10.3906/elk-1403-57.
- Nagarajan, B. et al. "Phase Disposition PWM Multicarrier Based 5 Level Modular Multilevel Inverter for PV Applications." (2016).
- Nagarajan, Booma & Sathi, Rama. (2015). CFAVC scheme for high frequency series resonant inverter-fed domestic induction heating system. *International Journal of Electronics*. 103. 1-17. 10.1080/00207217.2015.1036314.

- **Nagarajan, Booma & Sathi, Rama. (2015). Phase Locked Loop based Pulse Density Modulation Scheme for the Power Control of Induction Heating Applications. Journal of Power Electronics. 15. 65-77. 10.6113/JPE.2015.15.1.65.**
- **Booma, Nagarajan & Reddy, Sathi & Pradeep, Vishnuram. (2015). Simulation of PWM Controlled Double Half Bridge Inverter for Partly Coupled Induction Cooking System. 10.1007/978-81-322-2119-7_24.**
