

1. Modified impedance source inverter for power conditioning system J. SUGANTHI and M RAJARAM; Sadhana Vol. 42, No. 3, March 2017, pp. 353–364
2. Effective analysis and comparison of Impedance Source Inverter topologies with different control strategies for Power Conditioning System, Renewable and Sustainable Energy Reviews 51 (2015) 821–829
3. Performance analysis of an improved z-source inverter integrated standalone power system with ride through capability under different load conditions : - J. Suganthi - ISSN: 2455-5797 International Journal of Innovative Works in Engineering and Technology (IJIWET) - **Suganthi J, Vol. (1), No. (2): Dec 2015 Page No: 195 - 204**
4. Indirect control of peak dc-link boost and ac output voltage of the modified z-source inverter for power conditioning system - J. Suganthi, International Journal of Innovative Works in Engineering and Technology (IJIWET) , **Suganthi J, Vol. (2), No. (6): Dec 2016, Page No: 464 – 472**
5. Aquasi z-source networks for multilevel converters based on fundamental phase shift compensation with a fault-tolerant strategy - J. Suganthi, International Journal of Innovative Works in Engineering and Technology (IJIWET), **Suganthi J, Vol. (1), No. (2): Dec 2016**
6. SL qZSI with PMSG wind conversion system - S. Archana ; J. Suganthi ; 2015 International Conference on Innovations in Information, Embedded and Communication Systems (ICIIECS) - 2015/3/19 : Pages 1 - 5
