

1. Studies on the characteristics of TiO₂ photoanode and flavanol pigment as a sensitizer for DSSC applications, S Vedavarshni, T Raguram, **K S Rajni**, Pramana, Vol.94, **2020**.
2. Synthesis and characterisation of nickel cobalt sulfide nanoparticles by the solvothermal method for dye-sensitized solar cell applications, Polyhedron, Vol.176, 2020.
3. Synthesis and Characterization of Nickel-Substituted Cobalt Ferrite Nanoparticles Using Sol–Gel Auto-combustion Method, Gangothri S Kumar, T Raguram, **KS Rajni**, Journal of Superconductivity and Novel Magnetism, Vol.32, **2019**.
4. Structural and Magnetic Studies of Zinc Substituted Cobalt Ferrite Nanoparticles prepared by Sol–Gel Technique, IOP Conf. Series: Materials Science and Engineering, T Raguram, **K S Rajni** V K Lakshmi, Gangothri S Kumar, A Anugraha, Vol.577, **2019**.
5. Synthesis and analysing the structural, optical, morphological, photocatalytic and magnetic properties of TiO₂ and doped (Ni and Cu) TiO₂ nanoparticles by sol technique, T Raguram, **KS Rajni**, Applied Physics A, Vol.125, **2019**.
6. Study of zirconia nanoparticles synthesized via sol-gel technique, Aswathi Dhar, A Arjun, Akhila Rahul, **K S Rajni**, Proceedings of the materials and technologies for energy conversion and storage, Vol.50, **2018**.
7. Study of heat transfer characteristics of nanofluids in an automotive radiator, R Harsh, Hitish Srivastav, Prabhat Balakrishnan, Vivek Saini, D Senthil Kumar, **KS Rajni**, S Thirumalini, IOP Conference Series: Materials Science and Engineering, Vol.310, **2018**.
8. Synthesis and characterisation of undoped and methyl orange (dye) doped L-alanine acetate single crystal, T Raguram, **KS Rajni**, P Shanmugam, S Meiyazhagan, Int. J. Chem Tech Res, Vol.9, **2016**.
9. Studies on the Structural and Conduction mechanism (ac) in thermally Evaporated CdSe thin films, International Journal of Chem Tech Research, **K S Rajni**, Vol.7, **2016**.
10. Studies on the Structural and Conduction mechanism (ac) in thermally Evaporated CdSe thin films, International Journal of Chem Tech Research, **K S Rajni**, Vol.7, **2015**.
