List of Publications

S.No	Title of Publication
1	A COMPREHENSIVE REVIEW ON THE IMPACT OF COMPRESSED SENSING IN WIRELESS SENSOR NETWORKS. G Kumar, K Baskaran, RE Blessing, M Lydia International Journal on Smart Sensing & Intelligent Systems 9 (2),2016
2	Effect of nonlinearity and boiler dynamics in automatic generation control of multi-area thermal power system with proportional-integral-derivative and ant colony optimization ... K Jagatheesan, B Anand, K Baskaran, N Dey, AS Ashour, VE Balas Recent advances in nonlinear dynamics and synchronization, 89-110,2018
3	Securing the smart grid network: A review GEP Kumar, K Baskaran, RE Blessing, M Lydia Computational Intelligence and Computing Research (ICCIC), 2016 IEEE,2016
4	Hybrid FGWO Based FLCs Modeling for Performance Enhancement in Wireless Body Area Networks SS Banu, K Baskaran Wireless Personal Communications 100 (3), 1163-1199,2018
5	Genetic Grey Wolf Optimizer Based Channel Estimation in Wireless Communication System J Sujitha, K Baskaran Wireless Personal Communications 99 (2), 965-984,2018
6	FPGA based DPWM/DPFM architecture for digitally controlled dc-dc converters V Radhika, K Baskaran Electrical, Computer and Electronics Engineering (UPCON), 2016 IEEE Uttar,2016
7	Cryptographically Enforced Data Access Control in Personal Health Record Systems GK Ragesh, K Baskaran Procedia Technology 25, 473-480,2016
