

Name: Dr. T. SHANMUGA PRIYA

Designation: Associate Professor

Department: Civil Engineering

Name of the Organization / Institution: Vellore Institute of Technology

Place: Vellore

Pin code: 632 014

Mobile: +91 -9842117484

E-Mail: shanmugapriya.t@vit.ac.in

Area of Specialization: Structural Engineering

Publications:

1. **T. Shanmuga Priya**, Ashna Mehra, Samyak Jain, Kunal Kakria (2021), Effect of graphene oxide on high-strength concrete induced with rice husk ash: Mechanical and Durability performance, Innovative Infrastructure Solutions , 6:5, 1-16.
2. **T. Shanmuga Priya** and R. Senthilkumar(2020), Flexural behaviour of reinforced concrete beams with silica fume and processed quarry fines, **Advances in Concrete Construction**, Vol. 10, No. 2, 161-169
3. Kunal Kakria , S. Thirumalini, Michele Secco, **T Shanmuga Priya** (2020), A novel approach for the development of sustainable hybridized geopolymer mortar from waste printed circuit boards, Resources, Conservation & Recycling, 163, 105066
4. G. Velvizhi S. Shanthakumar , Bhaskar Das , A. Pugazhendhi , **T. Shanmuga Priya** , B. Ashok K. Nanthagopal, R. Vignesh, C. Karthick (2020), Biodegradable and non-biodegradable fraction of municipal solid waste for multifaceted applications through a closed loop integrated refinery platform: Paving a path towards circular economy, Science of the Total Environment , 731 138049.
5. **Shanmuga Priya T.**, N. Ramesh, Ankit Agarwal, Shreya Bhusnur and Kamal Chaudhary, (2019), "Strength and durability characteristics of concrete made by micronized biomass silica and Bacteria-Bacillus sphaericus, Construction and Building Materials, 226, 827–838.
6. **Shanmugapriya T** and Thirumalini S 2018, "Evaluation of strength and durability of natural fibre Reinforced high strength concrete with M-Sand", Romanian Journal of Materials 2018, 48 (4), 483 – 490

7. **Shanmugapriya T**, R.N. Uma and K. Murali (2018), "Multivariate adaptive regression splines model to predict strength characteristics of high performance concrete", Journal of Structural Engineering Vol. 45, No. 3, pp. 1-10.
8. **ShanmugaPriya T** and Punitha Kumar A. (2017), "Study on crushed sand as an alternative for natural sand in High Performance Concrete", International Journal of Civil Engineering and Technology, 8(12), pp. 332-338.
