

Last 5 year publications details

1. V Hariharan, B Gnanavel, V Aroulmoji, R Sathiyapriya, K Prabakaran, C Sekar, K Selvaraju, Simultaneous structural and optical control of tungsten oxide (WO₃) nanoparticles through cobalt doping for super conducting applications, International Journal of Advanced Science and Engineering 4(4):698
2. K. Selvaraju, G. Anandhababu, Assembly of favorable 2D Co-N₄-based polymer nanosheets for proficient oxygen reduction reaction, *Ionics* **volume 25**, pages5939–5947(2019)
