1. **K.M. Pachiyappan**, “ A study on fiber size & cross sectional shape on moisture transmission properties of knitted active sports wear”Journal of emerging technologies & Innovative research, Vol.6,pp.622-628.
2. **K.M. Pachiyappan**, “Phytochemical Screening and Antimicrobial Potential of Melia Azedarach Bark Extracts for Developing Health Care Materials” World Journal of Pharmaceutical Research, Vol.8, pp.776.
3. **K.M. Pachiyappan**, “Methanolic Extracts of Medicinal Herbs as A Potential Source For Developing Mosquito Repellent Fabrics” World Journal of Pharmaceutical Research, Vol.8, pp.990.

2018

1. P Yasotha, **KM Pachiyappan**, M Roobiya, M Sunitha “Ergonomic evaluation of work place in apparel industry” International Journal of Home Science, Vol. 4(3).pp.333-336.
2. **K.M. Pachiyappan**, “An elucidate study of laser technology in apparel industry” Journal of emerging technologies & Innovative research, Vol.5, pp.117-122.
3. **K.M. Pachiyappan**, “Investigation of thermo-physiological comfort characteristics of Eri silk knitted fabric” International journal for research in engineering application & management, Vol.4, pp.28-32.
4. **K.M. Pachiyappan**, “Investigation of differential stretching properties of single jersey knitted fabric on air permeability” International journal of Innovative Research in engineering & multidisciplinary present day sciences, Vol.6, pp714-720.

5. **K.M. Pachiyappan**, “An optimization of knitting parameter on antimicrobial treatment by using box-behnken design” Journal of emerging technologies & Innovative research, Vol.5, pp.221-228.
6. **KM Pachiyappan**, C Prakash, V Kumar, “Influence of process variables on antimicrobial properties of cotton knitted fabrics” Journal of Natural Fibers,pp. 1-13.

2017

1. **KM Pachiyappan**, “Microencapsulated lemongrass oil for mosquito repellent finishing of knitted cotton wear” Asian Journal of Pharmaceutical clinical research, Vol.10,

2016

1. **Pachiyappan. K.M** “Stamp forming process parameter of E- Glass / PP plied Matrix composite material on mechanical properties of composite – A Box Behnken Approach” A Journal of science and technology volume, Vol.4.
