

Dr.V.Ponmalar

Name : Dr.V.Ponmalar
Designation : Associate Professor
Department : Department of Civil Engineering
University/Institution : Anna University, Chennai
Place : Chennai
Pin code : 600025
Mobile no : 22357413
E- mail : ponmalar_v@annauniv.edu
Area of specialization : Advanced Construction Materials, Rehabilitation and Strengthening of Structures.

PUBLICATIONS:

1. Nandhini. K and **Ponmalar. V** (2020), "Effect of Blending Micro and Nano Silica on the Mechanical and Durability Properties of Self-Compacting Concrete" , Silicon,Vol.1,No.1,pp.10 – 20.
2. Nandhini. K and **Ponmalar. V** (2020), "Investigation On Nano-Silica Blended Cementitious Systems On The Workability And Durability Performance Of Self-Compacting Concrete", Materials Express, Vol.10, No.1,pp. 10-20.
3. Vishnu.A, Syed AadilMoosvi, Abiraagav and **Ponmalar. V** (2019), "Experimenral Research On Strength Of Concrete Prepared By Using Coarse Aggregate From Concrete Debris", International Journal Of Engineering And Advanced Technology, Vol. 8,No.6,pp. 153-337.
4. Selvakumar T and **Ponmalar V** (2018), "Strength Characteristics Of Hybrid Fiber Reinforced Concrete", International Journal Of Innovative Research In Science Engineering And Technology, Vol.7,No.7,pp. 8212-8231.
5. **Ponmalar V**, Aravindraj V and Nandhini K (2018), "Study On Factors Influencing Labour Productivity In Residential Buildings In Indian Scenario", International Journal Of Engineering Technologies And Management Research, Vol.5,No.2,pp. 239-248.
6. Nandhini. K and **Ponmalar. V** (2018), "Microstructural Behaviour And Flowing Ability Of Self-Compacting Concrete Using Micro- And Nano-Silica", Micro & Nano Letters,Vol.13,No.8,pp. 1213-1218.
7. Nandhini. K and **Ponmalar. V** (2018), "Passing Ability, Water And Chloride Penetration Of Self-Compacting Concrete Using Micro-Silica As Cementitious Replacement Material", RevistaRomana De Materiale - Romanian Journal Of Materials, Vol.48,No.3,pp. 362-368.
8. Venkateshwaran, K. Nandhini and **V. Ponmalar** (2018), " Study on Steel Fiber Reinforced Self Compacting Concrete", Asian Journal of Engineering and Applied Technology, Vol.7,No.1,pp. 11-15.
