

**Dr. K.Ramesh,**

**Professor**

Department of Applied Mechanics  
Indian Institute of Technology, Madras  
Chennai, India-600 036  
91-44-22574058  
kramesh@iitm.ac.in

1. Experimental study of dry stone masonry walls using digital reflection photo elasticity  
P Kumar, MP Hari Prasad, A Menon, K Ramesh Strain, e12372 2020
2. Digital photo elasticity: Recent developments and diverse applications K Ramesh, S  
Sasikumar Optics and Lasers in Engineering, 106186 1 2020
3. Evaluation of Critical Crack Orientations and Crack Growth Analysis in Compressor Blade  
Root Subjected to Fatigue K Ramesh, M Thomre Journal of Engineering for Gas Turbines  
and Power 142 (4) 2020
4. Applicability of colour transfer techniques in Twelve fringe photo elasticity (TFP) S  
Sasikumar, K Ramesh Optics and Lasers in Engineering 127, 105963 2020.
5. Study of Crack Interaction Effects under Thermal Loading by Digital Photo elasticity and  
Finite Elements A Vivekananda, K Ramesh Experimental Mechanics 60 (3), 295-316  
2020.
6. Analysis of Crack Growth in Compressor Blade Root Subjected to Fatigue M Thomre, K  
Ramesh Challenges in Mechanics of Time Dependent Materials, Fracture, Fatigue 1 2020.
7. Colour Transfer in Twelve Fringe Photo elasticity (TFP) S Sasikumar, K Ramesh  
Advancements in Optical Methods & Digital Image Correlation in Experimental 2020.
8. Evaluation of Fracture Parameters of Cracks in Compressor Blade Root Using Digital  
Photo elasticity M Thomre, K Ramesh Reliability, Safety and Hazard Assessment for Risk-  
Based Technologies, 557-566 1 2020.
9. Study of interaction effects of asymmetric cracks under biaxial loading using digital photo  
elasticity A Vivekanandan, K Ramesh Theoretical and Applied Fracture Mechanics 99,  
104-117 19 2019.
10. Development of a New Normalization Technique for Twelve Fringe Photo elasticity (TFP)  
A Pandey, K Ramesh Advancement of Optical Methods & Digital Image Correlation in  
Experimental 3 2019.
11. Evaluation of conformal and non-conformal contact parameters using digital photo  
elasticity MP Hari Prasad, K Ramesh, BC Prabhune Experimental Mechanics 58 (8), 1249-  
1263 5 2018.
12. An improved normalization technique for white light photo elasticity K Ramesh, A Pandey  
Optics and Lasers in Engineering 109, 7-16 16 2018.

13. Evaluation of mode-I SIF, T-stress and J-integral using displacement data from digital image correlation–Revisited MS Reddy, K Ramesh, A Thiagarajan Theoretical and Applied Fracture Mechanics 96, 146-159 9 2018.
14. Study of Photo plastic Behaviour of Polycarbonate using Digital Image Correlation MS Reddy, K Ramesh Experimental Mechanics 58 (6), 983-995 1 2018.
15. Analysis of contact zones from whole field isochromatic using reflection photo elasticity MP Hari Prasad, K Ramesh Optics and Lasers in Engineering 105, 86-92 14 2018
16. Birefringence measurement for validation of simulation of precision glass molding process TD Pallicity, AT Vu, K Ramesh, P Mahajan, G Liu, O Dambon Journal of the American Ceramic Society 100 (10), 4680-4698 2017.
17. Evaluation of Hertzian contact parameters from whole field displacement data MP Hari Prasad, K Ramesh the Journal of Strain Analysis for Engineering Design 52 (7), 403-409 2 2017.
18. Scanning schemes in white light Photo elasticity–Part I: Critical assessment of existing schemes V Ramakrishnan, K Ramesh Optics and Lasers in Engineering 92, 129-140 18 2017.
19. Scanning schemes in white light photo elasticity–part II: novel fringe resolution guided scanning scheme V Ramakrishnan, K Ramesh Optics and Lasers in Engineering 92, 141-149 19 2017.
20. Contact zone evaluation of dental implants using digital photo elasticity MP Hari Prasad, K Ramesh Mechanics of Biological Systems and Materials, Volume 6, 39-43 5 2017
21. Digital photo elastic analysis applied to implant dentistry K Ramesh, MP Hari Prasad, S Bhuvanewari Optics and Lasers in engineering 87, 204-213 13 2016
