TITLE	CITED BY	YEAR
Experimental assessment on the impact of cutouts on a hollow shaft system G Saravanan, R Venkatachalam, G Nallakumarasamy Materials Testing 62 (11), 1143-1146		2020
Experimental investigation on the effect of ceramic coating on the wear resistance of Al6061 substrate S Chinnusamy, V Ramasamy, S Venkatajalapathy, GV Kaliyannan, ... Journal of Materials Research and Technology 8 (6), 6125-6133	3	2019
Effects of cut-outs on the vibrational characteristics of a hollow shaft system G Saravanan, R Venkatachalam, G Nallakumarasamy Materials Testing 61 (7), 652-658	2	2019
Experimental investigations on the influence of TiC/graphite reinforcement in wear behavior of Al 6061 hybrid composites S Jeyaprakasam, R Venkatachalam, C Velmurugan Surface Review and Letters 26 (04), 1850173	3	2019
Mechanical and thermal behavior of hybrid glass/jute fiber reinforced composites with epoxy/polyester resin P Manuneethi Arasu, A Karthikayan, R Venkatachalam Polimery 64	2	2019
Transient computational fluid dynamics investigations on thermal performance of solar air heater with hollow vertical fins D Jagadeesh, R Venkatachalam, G Nallakumarasamy Thermal Science 22 (6 Part A), 2389-2399		2018
Prediction of the surface roughness and wheel wear of modern ceramic material (Al₂O₃) during grinding using multiple regression analysis model R Kanakarajan, P Sundaram, S. Kumaravel, A Rajasekar, R Venkatachalam Indian Journal of Engineering & Materials Sciences 24 (3), 182-186	2 *	2017
Acoustic emission testing of the machining performance of SiC grinding wheel shaped Al₂O₃ ceramics P Kanakarajan, S Sundaram, A Kumaravel, R Rajasekar, ... Materials Testing 58 (10), 908-912	2	2016
Characterisation of banana fiber-a review D Jagadeesh, R Venkatachalam, G Nallakumarasamy Journal of Environmental Nanotechnology 4 (2), 23-26	7	2015
Tribological and Thermal Characterization of Glass Fiber-A Review G Saravanan, G Nallakumarasamy, R Venkatachalam J. Environ. Nanotechnol 4 (2), 27-30	1	2015

TITLE	CITED BY	YEAR
Vibration characteristics of orthotropic shaft–disk system with different constrained damping layers: experimental and numerical study R Venkatachalam, SB Prabu The International Journal of Advanced Manufacturing Technology 65 (5-8), 601-610	5	2013
Vibration and damping analysis of orthotropic sandwich shaft-disc system using finite element method R Venkatachalam, SB Prabu International Journal of Mechanics and Materials in Design 8 (3), 287-296	5	2012
Finite element based investigation on vibrational performance of a sandwich system R Venkatachalam, SB Prabu, KV Raja Journal of Vibration and Control 18 (9), 1284-1290	6	2012
An experimental investigation on the vibration responses of a mild steel sandwich shaft disc system RVSB Prabu International Conferences on Recent Trends in Advanced Materials		2012
An Experimental Investigation on the Vibration Responses of a Mild Steel Sandwich Shaft Disc System R Venkatachalam, S Balasivanandha Prabu Advanced Materials Research 584, 391-395		2012
An experimental investigation on the vibration responses of a mild steel hollow shaft disc system RVSB Prabu 26th Indian Engineering Congress	2	2011
Effect of constrained layers on vibrational characteristics of a composite sandwich system—a finite element based critical investigation R Venkatachalam, SB Prabu, KV Raja International Journal of Mechanics and Materials in Design 7 (4), 291	7	2011
Frequency and damping studies on Graphite/Epoxy sandwich shaft disc system with different core RVSB Prabu International Conference on Resource Utilization and Intelligent Systems		2008
Studies on frequency and damping of mild steel shaft disc system with different core material SSSR R. Venkatachalam, P. Senthilkumar National Conference on Modeling and Simulation Technique in Manufacturing ...		2007
Studies on frequency and damping of sandwich shaft disc system with ER and MR core material PSSS R. Venkatachalam National Conference on Recent Advancement in mechanical Engineering		2007
