

Name : Dr. R. Adal Arasan

Designation : Professor

Department : Mechanical Engineering

Organisation : No.162, Poonamallee High Rd, Velappanchavadi, Maduravoyal, Chennai, Tamil Nadu 600077

Mobile : 8939873030

Email ID : adalarasan@saveetha.ac.in, adalno1@yahoo.co.in

Area of Specialisation : Composites

Application of Grey Taguchi-based response surface methodology (GT-RSM) for optimizing the plasma arc cutting parameters of 304L stainless steel

R Adalarasan, M Santhanakumar, M Rajmohan

The International Journal of Advanced Manufacturing Technology 78 (5-8), (2015)

Optimization of laser cutting parameters for Al6061/SiCp/Al₂O₃ composite using grey based response surface methodology (GRSM)

R Adalarasan, M Santhanakumar, M Rajmohan

Measurement 73, 596-606, (2015)

Experimental modelling and analysis in abrasive waterjet cutting of ceramic tiles using grey-based response surface methodology

M Santhanakumar, R Adalarasan, M Rajmohan

Arabian Journal for Science and Engineering 40 (11), 3299-3311, (2015)

Parameter design in friction welding of Al/SiC/Al₂O₃ composite using grey theory based principal component analysis (GT-PCA)

R Adalarasan, AS Sundaram

Journal of the Brazilian Society of Mechanical Sciences and Engineering 37 (2015)

Parameter design for cut surface characteristics in abrasive waterjet cutting of Al/SiC/Al₂O₃ composite using grey theory based RSM

M Santhanakumar, R Adalarasan, M Rajmohan

Journal of Mechanical Science and Technology 30 (1), 371-379, (2016)

Application of Taguchi based Response Surface Method (TRSM) for Optimization of Multi Responses in Drilling Al/SiC/Al₂O₃ Hybrid Composite

R Adalarasan, M Santhanakumar

Journal of The Institution of Engineers (India): Series C 96 (1), 65-71, (2015)

An investigation on surface finish and flank wear in hard machining of solution treated and aged 18% Ni maraging steel

M Santhanakumar, R Adalarasan, S Siddharth, A Velayudham

Journal of the Brazilian Society of Mechanical Sciences and Engineering 39 ... (2017)

Parameter design and analysis in continuous drive friction welding of Al6061/SiCp composites

R Adalarasan, AS Sundaram

Journal of Mechanical Science and Technology 29 (2), 769-776, (2015)

Parameter design in fusion welding of AA 6061 aluminium alloy using desirability grey relational analysis (DGRA) method

R Adalarasan, M Santhanakumar

Journal of The Institution of Engineers (India): Series C 96 (1), 57-63, (2015)

Selection of optimal machining parameters in pulsed CO₂ laser cutting of Al6061/Al₂O₃ composite using Taguchi-based response surface methodology (T-RSM)

R Adalarasan, M Santhanakumar, S Thileepan

The International Journal of Advanced Manufacturing Technology 93 (1-4), 305-317, (2017)

An integrated approach of TOPSIS and response surface methodology for optimising the micro WEDM parameters

M Santhanakumar, R Adalarasan, SS Raj, M Rajmohan

International Journal of Operational Research 28 (1), 18-34, (2017)

Response surface methodology and desirability analysis for optimizing μ -WEDM parameters for Al6351/20% Al₂O₃ composite

R Adalarasan, M Santhanakumar

Int J ChemTech Res 7 (6), 2625-2631, (2015)

Study on Slurry Paste Boronizing of 410 Martensitic Stainless Steel Using Taguchi Based Desirability Analysis (TDA)

SC Atul, R Adalarasan, M Santhanakumar

International Journal of Manufacturing, Materials, and Mechanical ... (2015)

Study of friction welding characteristics of Al/SiC composite and application of grey-based TOPSIS

R Adalarasan, A Shanmuga Sundaram

Journal of the Chinese Institute of Engineers 39 (4), 484-492, (2016)

Parameter design in plasma arc cutting of galvanised iron sheet using desirability function-based response surface methodology

M Santhanakumar, R Adalarasan, M Rajmohan

International Journal of Manufacturing Research 10 (3), 199-214, (2016)

Application of grey Taguchi based response surface methodology (GT-RSM) in injection moulding of polypropylene/E-glass composite

M Santhanakumar, R Adalarasan

International Journal of Manufacturing, Materials, and Mechanical , (2016)

Investigation in solid-state joining of Al/SiC/Al₂O₃ composite using Grey-based desirability (GBD) and response surface plots

R Adalarasan, M Santhanakumar, A Shanmuga sundaram

Journal of the Chinese Institute of Engineers 40 (1), 55-65 (2017)

Analysis on abrasive waterjet cutting of glazed vitreous tiles using Taguchi-based RSM

M Santhanakumar, R Adalarasan, M Rajmohan

International Journal of Manufacturing Technology and Management 31 (5), 472-489 (2017)

Parameter Design in Molten Salt Boronizing of Austenitic Stainless Steel using Grey Relational Analysis

A SC, A R, S M

International Journal of Applied Engineering Research 10 (33), 25976-25981, (2015)

Optimal Performance Evaluation of Energy Efficient Residential Air Conditioning System with Nanofluid-based Intercooler using Taguchi-based Response Surface Methodology Fluid ...

B Navaneethakrishnan, N Nithyanandan, R Adalarasan, ...

Journal of New Materials for Electrochemical Systems 21 (3), 141-150, (2018)

Optimal performance analysis of energy efficient residential air conditioning system with nanofluid-based intercooler using Taguchi-based response surface methodology

N Balaji, N Nithyanandan, R Adalarasan, M Santhanakumar, PSM Kumar

Journal of New Materials for Electrochemical Systems 21 (3), 141-150, (2018)

An Investigation in Abrasive Waterjet Cutting of Al6061/SiC/Al₂O₃ Composite Using Principal Component Based Response Surface Methodology

M Santhanakumar, R Adalarasan, M Rajmohan

International Journal of Manufacturing, Materials, and Mechanical ..., (2016)

Investigation on strength of solid state Al6061/30% Al₂O₃ bonds for automotive applications using response surface methodology

R Adalarasan, M Santhanakumar, S Thileepan

International Journal of Automotive Composites 1 (4), 364-374, (2015)

RESPONSE SURFACE METHODOLOGY FOR EFFECTIVE LUBRICATION AND REDUCED TOOL WEAR IN TURNING EN24 STEEL.

R ADALARASAN, M SANTHANAKUMAR

International Journal on Design & Manufacturing Technologies 10 (1), (2016)

Application Of Response Surface Methodology in Abrasive Waterjet Machining of High Speed Steel

A SE, A R, S M

International Journal of Applied Engineering Research 5 (3), 25968-25975(2015)

Multi Parametric Optimization of Friction Weld Characteristics of Al/SiCp Composites using Grey Desirability Analysis (GDA)

A R, S M, S Sundaram A

International Journal of Applied Engineering Research 10 (71), 332-338, (2015)
