## List of Publications

S.No	Title of Publication
1	An energy aware competition based clustering for cluster head selection in wireless sensor network with mobility M Narendran, P Prakasam Cluster Computing, 1-10,2019
2	Investigational Validation of PV Based DCDMLI Using Simplified SVM Algorithm Utilizing FPGA Tied with Independent Sources. Circuits and Systems, Volume 7, No 11, 3831-3848,2018 MV Rajkumar, P Prakasam, PS Manoharan
3	Design of high speed FFT algorithm For OFDM technique CA Arun, P Prakasam 2016 Conference on Emerging Devices and Smart Systems (ICEDSS), 66-71
4	Proposed Energy Efficient Multi Attribute Time Slot Scheduling Algorithm for Quality of Service in Wireless Sensor Network P Sathyaprakash, P Prakasam Wireless Personal Communications 97 (4), 5951-5968,2017
5	Tibia Fracture Healing Prediction Using Adaptive Neuro Fuzzy Inference System M Sridevi, P Prakasam, S Kumaravel, P Madhavsarma Intelligent Automation & Soft Computing 23 (2), 359-363,2017
6	Investigational Validation of PV Based DCD-MLI Using Simplified SVM Algorithm Utilizing FPGA Tied with Independent Sources MV Rajkumar, P Prakasam, PS Manoharan Circuits and Systems 7 (11), 3831,2017
7	Quality of Service and Topology Control Protocol in Wireless Sensor Network: A Survey P Sathya Prakash, P Prakasam Journal of Signal Processing and Wireless Networks 2 (1), 01-12,2017
