Recovery Algorithm for Transaction Framework in Wireless Mobile Environment
MJP JC, K Thanushkodi
International Journal on Computer Science and Engineering 2 (04), 1228-1232

Communication of Smart Vehicles Using Privacy Preserving Block chain – Based Incentive Announcement Network
MJPJC Surya Prabha Devi
International Journal of Research and Analytics Reviews 6 (2), 357-361

Secure and Efficient Smart Parking System in Vehicular Adhoc Networks
MJPJC Ramana Raghavi P.
International Journal of Research and Analytics Reviews 6 (2)

VANET: A Survey on Issues in Communication of Smart Vehicles
MJPJC Surya Prabha Devi
International Conference on Inventive Computation Technologies

Detection and Analysis of Carcinoma in medical Diagnosis
T J. C. Miraclin Joyce Pamila
International Conference on Applied Mathematics and Informatics,

Job-Driven Scheduling for Virtual MapReduce Clusters
PU Miraclin Joyce Pamila J.C.
International Journal of Advanced Research Trends in Engineering and …

Effect of Sentiment Embeddings in Sentiment Analysis
AJM Miraclin Joyce Pamila J.C.
International Journal of Advanced Research Trends in Engineering and …

Group Firefly Algorithm for Feature Selection in Big Data Environment
MJPJC Senthamil Selvi Ramar, Valarmathi Muniyappan Lakshapalam
Journal of Advanced Research in Dynamical and Control Systems, 1179-96

Intra and Inter XML Query Answering Using Holistic Boolean Twig Pattern Matching
JC Pamila, M Joyce, D Rajagopal
Asian Journal of Information Technology 15 (4), 756-764

A survey on data gathering using M-Collector in wireless sensor networks
RT Suganya, JCMJ Pamila
2015 International Conference on Advanced Computing and Communication …

Extensive Deep Belief Nets with Restricted Boltzmann Machine Using Map Reduce Framework
MJPJCP Ganesh
American Journal of Computer Science and Engineering Survey, 3 (2)

Framework for concurrent transaction management in mobile wireless environment
MJP JC
