1. Uniform ultimate bounded robust model reference adaptive PID control scheme for visual servoing,RG Subramanian, VK Elumalai, S Karuppusamy, VK Canchi,Journal of the Franklin Institute 354 (4), 1741-1758,10,2017

2. Robust face identification using DTCWT and PCA subspace based sparse representation,K Selvakumar, J Jerome, K Rajamani,Multimedia Tools and Applications 75 (23), 16073-16092,5,2016

3. Real-time vision based driver drowsiness detection using partial least squares analysis,K Selvakumar, J Jerome, K Rajamani, N Shankar,Journal of Signal Processing Systems 85 (2), 263-274,13,2016

4. Robust embedded vision system for face detection and identification in smart surveillance,KSelvakumar, J Jerome, N Shankar, T Sarathkumar,International Journal of Signal and Imaging Systems Engineering 8 (6), 356-366,4,2015
